

# Waterfall Wedding Theme Package

**5 Days – 4 nights**

**Price from 1792 EUR per person**

**20 persons**

Are you looking for something special?

Waterfall weddings are beautiful and nature is a perfect backdrop for your special day. A waterfall is a wistful, romantic scene, whether the brilliant water plunges down dramatic cliffs or trickles over meandering cascades.

The waterfalls Hraunfossar and Barnafoss are beautiful and unusual natural phenomena. The Hraunfossar Falls are clear, cold springs that well up through the lava and run in falls and rapids into the Hvítá River.

Seljalandsfoss – a spectacular waterfall in the South of Iceland. The waterfall of the river Seljalandsá drops 60 meters over the cliffs of former coastline. It's not the mightiest one but the fact you can walk behind it makes it special, you can even get married behind the waterfall!!

## Program

### Day 1

Arrival to Keflavik International Airport, bust transfer to your Hotel in Reykjavik

18:00 – 18:15 Bus will pick you up from your Hotel for Evening Welcome dinner reception

18:00 Evening Welcome dinner reception

09:00 – 09:15 Bus will pick you up from your Hotel for Golden Circle Tour ending at one of Country Hotels

09:15 – 16:00 Guided Golden Circle Tour

The drive goes into the countryside to Thingvellir, the site of the original Althing, the actual founding place of the oldest democratic parliament in the world. This area is noted for its spectacular lava formations and being the only place in the world where you can actually see the tectonic plates drift apart.

Today Thingvellir is a national park by many considered the most important one where the protected area will always be the property of the Icelandic nation.

Walk down the main rift. Research has made it clear that Thingvellir is a natural wonder on an international scale, with the geologic history and the bios stem of Lake Thingvallavatn forming a unique entity. The faults and fissures of the area make evident the rifting of the earth's crust and the ecosystem of Lake Thingvallavatn is a perfect example of species evolution in nature. The Convention concerning the Protection of the World Cultural and Natural Heritage, an international agreement adopted by the General Conference of UNESCO in 1972, was founded on the premise that certain places on Earth are of outstanding universal value and as such should form part of the common heritage of humankind.

We now proceed to Geysir, the “geyser” which gave its name to all other erupting hot springs. You will see one of the most active geysers in the area, Strokkur, spouting up to 90 feet into the air.

From there you will go to one of the most impressive waterfalls in Europe, Gullfoss (Golden Waterfall). Here you will see thousands of tons of icy water thunder majestically down in a double-fall into a deep gorge from the glacier Langjokull.

16:00-16:30 Arrival to your Countryside Hotel, check in

16:30 – 19:00 Leisure time
